

Setting Up Smartermail to Work in Windows Live Mail

Click on accounts on the menu bar

You will see the following, select Properties

You will see the next screen. Change the settings to the following:

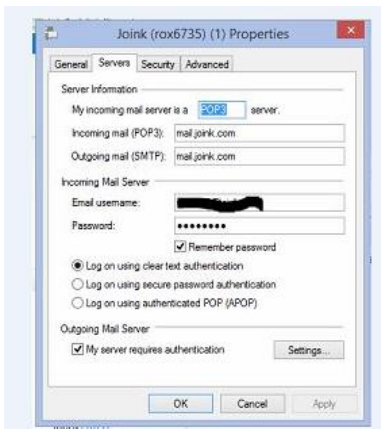

Incoming mail- mail.joink.com

Outgoing mail- mail.joink.com

Email username- complete email address

Password – whatever your password is

Select the settings button at the bottom right of screen

You will see the following: Make sure the bullet is next to “Use same setting as my incoming mail server”

Click ok

Click on the Advanced tab, make sure the Outgoing mail (SMTP) is 587

If there is a check in the box next to “the server requires a secure connection (ssl) remove this check.

Incoming mail (POP3) 110.
