VIRTUAL MACHINE HOSTING

Joink operates a sophisticated on-site data center that leverages our redundant connectivity and power infrastructure to provide extreme reliability and high availability. Whether you are looking to host a single Windows or Linux machine, or you want to migrate your entire office server infrastructure, you can trust Joink with your data. All plans include nightly offsite backup as well as base windows server license. Call us today for more information or a quote!

Starting at \$249/month

OFFSITE BACKUP

Joink has partnered with industry leaders in data backup such as Veeam and Axcient to provide you with best-in-class options for backing up and securing your data. When you use Joink for your offsite backup provider, you can rest easy as your data is encrypted end-to-end and also offloaded to tape nightly to "air-gap" your backups from potential hackers. Call us today to get more information and start protecting your data!

Starting at \$49/month

EMAIL PROTECTION

Joink has partnered with the industry leader in Spam and Virus protection, ProofPoint, to enable our customers to send and receive emails without worry. Adding ProofPoint protection to your hosted email offering will ensure that every message sent to you is scanned and filtered for harmful viruses, spam, phishing attempts, and malicious content. Adding proofpoint is the best way to keep your inbox safe and secure.

Starting at \$1.45/month
